

Each year IAUP recognizes faculty who make significant contributions in curriculum development for world citizenship and who prepare students for successful careers in our global economy. Each member president of IAUP may annually nominate one faculty member from his or her university for a certificate of acknowledgement that is signed by IAUP's President and the member university president making the nomination.

This means that you have the opportunity to recognize with a prestigious award from a distinguished international association those conscientious faculty members who are making a difference at your university

To request an award, the IAUP member President must send the following form filled out and signed to the Secretary General of the IAUP, as indicated in the form:

- [IAUP Faculty Award Request Form](#)

Please submit this form at the latest end of October – 31th October AND attach a copy of the CV (in English!) of the recipient for our files.
